### PROFESSIONAL SUMMARY:

Experienced Mobile App Developer with 2 years of expertise in React Native, specializing in crafting dynamic and user-friendly applications.

### SKILLS & PROFICIENCIES:

- |                          |  |
|--------------------------|--|
| ✓ HTML ,CSS              | ✓ Reactjs, React-native                            |
| ✓ Javascript,android     | ✓ MongoDB, Mysql,Sqlite room for android           |
| ✓ Mobile App Development | ✓ Teamwork, multitasking, and attention to detail. |

### PROFESSIONAL EXPERIENCE:

#### Evon Technologies

Associate Software Developer | 08 June, 2022 - 31 May,2024

- Proficient in developing cross-platform mobile applications using React Native framework.
- Strong understanding and experience in writing clean and efficient JavaScript code for React Native applications.
- Good understanding and usage of states and props.
- Experience in managing application state using Redux for React Native.
- Proficient in implementing navigation and routing in React Native applications using React Navigation library.
- Familiarity with designing user interfaces and implementing UX principles in React Native applications.
- Proficient in setting up development environments for cross-platform application development using React Native CLI.

### RELEVANT PROJECTS:

#### 1.Efindit

React-native Developer | Technology- React-Native,Javascript | Aug, 2023 - may, 2024

Developed a dynamic and user friendly eCommerce application that offers seamless buying and selling experiences. The app supports both sellers, who can list and sell products, and buyers, who can browse, search, and rate products. It includes social logins, payment integration, and various other key features.

#### Roles & Responsibilities:

- Developed user interface components using React Native, leveraging modern libraries and frameworks.
- Built reusable components and front-end libraries for scalable future use.
- Implemented feedback and rating system, allowing users to share their experiences. This feature builds trust within the community and helps buyers make informed decisions.

- Translated designs and wireframes into high-quality, maintainable code.
- Collaborated with backend developers, designers, and other stakeholders to ensure smooth integration of front-end and backend functionalities.
- Conducted thorough testing and debugging to ensure optimal app performance and reliability.
- Employed the Redux design pattern to effectively manage the interaction between UI and business logic.
- Integrated PayPal for seamless payment processing.
- Implemented social login options, including Apple, Google, and Facebook.

## **2.Your Tennis Game**

React-Native Developer | Technology- React-Native, Javascript | Sep, 2022 - March, 2023

An app for scheduling tennis matches and inviting local players to tournaments.

### **Roles & Responsibilities:**

- Estimated project timelines and ensured timely completion.
- Utilized Redux design pattern for managing UI and business logic interaction.
- Documented UI design choices to enhance the app's visual appeal.
- Implemented and parsed JSON requests from web services using native and third party libraries.

## **3.Viewers Club**

React-Native Developer | Technology- React-Native, Javascript | March, 2023 - Aug, 2023

A Developed a cross-platform app for streaming movies and news channels, with support for Android TV, offering a cohesive user experience across devices.

### **Roles & Responsibilities:**

- Ensured cross-platform compatibility, extending functionality to Android TV.
- Created playlists for songs and integrated karaoke features.
- Implemented Redux design pattern for efficient UI and business logic interaction.
- Integrated Facebook login for streamlined user access.
- Handled JSON requests and response parsing using native and third-party libraries.
- Added map functionality for searching nearby locations like coffee shops and malls.

## **EDUCATION:**

### **Master of Computer Applications**

Dr. A.P.J. Abdul Kalam Technical University,UttarPradesh

### **Bachelor of Computer Applications**

Kumaun University Nainital
