Projects

Election Project

29 Days

it's election project about party and transformed odisha for all schemes and citizens welfare and the most important thing is know your candidate if someone comes to this website he can give vote to person means candidates and voter can give atleast one time vote there is no chance to give twice in one device that's all about it. and there is office bearers of state officer and district president and media cell.

In-house project

1038 Days

In that project basically first whenever we go to the website first is header section in the header section basically a drop down menu whenever we click the drop down then it's showing GL,Americas,Africa mean country wisely divided but default is Global(GI) whenever a client visit to website first check which services our organisations provided then client search our project over the details for separately for US client visit US website and Africa client visit Africa website and global for all country
