

SUMMARY

Experienced PHP Developer skilled in problem-solving and creating engaging interfaces. Proficient in the CodeIgniter framework, with a proven track record of teamwork and collaboration.

SKILLS

- **Backend:** PHP, Node.js, Express.js, MySQL, Postman
- **Frontend:** HTML, CSS, JavaScript, TypeScript.
- **Databases:** SQL Server, PhpMyAdmin.
- **Version Control:** Git.
- **Frameworks:** CodeIgniter, jQuery, Bootstrap, Angular
- **Additional Skills:** AJAX, JSON, WordPress.

WORK EXPERIENCE

PHP Developer Jan 2023 -Feb 2024
QuicSolv Technologies Pvt. Ltd. | Pune, India

- Developed engaging web pages using PHP **CodeIgniter**, utilizing **MVC** design for blending design expertise with cutting-edge technologies.
- Maintained visually appealing interfaces by proficiently utilizing **HTML5, CSS3, Bootstrap**.
- Activated robust **server-side** functionality with PHP and CodeIgniter, ensuring scalable and efficient web applications.
- Ensured clean and structured code using **object-oriented PHP programming**, meeting project specifications and resulting in a 15% reduction in user error rates.
- Created custom Stripe payment integration **APIs** for seamless and secure online transactions, enhancing user experience and payment processing efficiency.
- Proficient with code versioning tools, particularly **Git**, for managing and maintaining code repositories.

Argus System |Pune, India Dec 2021-Jan 2024

- Maintained a deep understanding of industry trends, best practices, and emerging technologies, contributing technical expertise and leadership to **dynamic PHP** development roles.
- Managed database interactions using **MySQL**, including generating the database structure, optimizing queries, and ensuring data integrity.
- Ensured efficient data exchange between the server and clients through proper handling of **JSON** and **XML** formats.
- Responsible for creating client-side validation using **JavaScript** and **jQuery**.
- Developed a track record of delivering meticulous work, consistently meeting deadlines, and producing high-quality output.
- Successfully project managed multiple tasks, meeting 100% of deadlines.

PROJECTS

My Window- |PHP-CodeIgniter, MySQL

- My Window is an ambitious project aimed at revolutionizing the management of window parts and assembly processes for various window types, such as Slimline and Smile series
- Implemented user authentication features, including sign-up, login, and logout functionalities, utilizing **MySQL** and **CodeIgniter** for secure data management.
- Develop modular components and dashboard, html forms using front-end technologies (**Html5, CSS3, Bootstrap**) to ensure a smooth user experience.
- Implemented **Payment gateways** for efficient state bank transaction, ensuring secure banking and seamless user interactions.
- Implemented dynamic data processing and **asynchronous** operations using **AJAX** integration to enhance user interaction and improve system responsiveness.
- Developed a feature to allow bulk import of data from **Excel** files for streamlining the process of adding or updating window parts and related information.

Mahindra | PHP, MySQL

- Developed a comprehensive system for Mahindra, specifically focusing on managing and organizing the intricate parts of cars, vehicles, and bikes.
- Implemented a robust pin structure where pins are assigned statuses - red (0) and green (1), representing the dynamic state of each vehicle part and stored it in database.
- Introduced IAS (Intelligent Assembly System) jobs, a unique feature that dynamically generates the structure of vehicle parts based on the configured pin statuses. This intelligent notification system ensures efficient tracking and management of the assembly process.
- Managed database interactions using MySQL, including generating the database structure,

- optimizing queries, and ensuring data integrity.
- Worked diligently to complete quality work to meet specifications and deadlines.
