Laravel & PHP

Html,Css,Javascript

Ajax.jQuery

Shopify

### EDUCATION

#### Bachelor of Computer Applications Saurashtra University

Shree H N Shukla College.  
7.5 CGPA

#### Higher secondary school

Shree Vivekanand Vidhyalay.  
70 %

#### Secondary School Certificate

Shree Vivekanand Vidhyalay.  
65 %

### LANGUAGES

Gujrati : 

Hindi : 

English : 

### PROFILE

worked with project managers to choose realistic yet ambitious pre-release software projects and code milestones. updated outdated code bases to conform to current development guidelines, enhancing functionality converted client specifications into documented use cases.

### WORK EXPERIENCE

#### Backend Developer

#### Metizsoft Solutions PVT Ltd

feb-2023 to Present

- The Laravel developer appears to have worked with the Laravel framework's CRUD (Create, Read, Update, Delete) procedures in addition to deploying applications on AWS servers.
- CRUD processes, in terms of database work, usually entail basic data manipulation chores including adding new records, reading already existing records, updating records, and deleting records. Laravel offers practical frameworks and strategies to handle these tasks effectively.
- Resolved bugs and issues reported by QA team in a timely manner.
- For Shopify, I have implemented a number of back-end capabilities, such as order synchronization, order fulfillment, order delivery, and customer and product syncing. During the synchronization process, I also added email functionality and integrated third-party APIs. After that, the information is seen in our admin panel and stored in the database, where it can be changed as needed.

- worked on the projects listed below :
- <https://neelamfoodlandmumbai.com>
- <https://stryderbikes.com>
- <https://www.westside.com>
- <https://www.nilkamalfurniture.com>
- <https://www.at-home.co.in>
- <https://www.nilkamalsleep.com>
- <https://tresorie.in>

## TOOLS & OTHER INTIGRATION

---

### BROWNTAPE

- Enabled automatic inventory changes by facilitating a smooth interaction between Shopify and the Browntape inventory system. Bidirectional data flow was implemented, enabling orders from Shopify to be transferred to Browntape without any problems.

### SAP (SYSTEMS APPLICATIONS & PRODUCTS)

- Implemented SAP API integration in Shopify for streamlined order processing, enabling automatic forward of orders to SAP system.

### QWIKCILVER

- Integrated Qwikcilver API to improve customer experience and enable smooth discounts application. This allows users to create wallets and generate discount gift cards throughout the ordering process.

### UNICOMMERCE

- Streamlined order fulfillment and improved operational efficiency by automating the creation and delivery of order invoices to customer in PDF format through the implementation of a Unicommerce API integration.

### MSG91

- I use the MSG91 API's ability to deliver generic messages and OTPs for a variety of occasions in order to combine it with SMS sending. For effective communication, this also includes the seamless integration of SMS sending functionalities via the MSG91 API.

---

### Declaration

I am confident of my ability to work in a team and i hereby declare that the information furnished above is true

---

SINCERELY,

*parth Butani*
