Data manager at kinkob kreations

data manager

As a data manager at Kinkob Kreation, my primary responsibility was to effectively manage and organize data by various key points such as states or cities. This involves collecting data from multiple sources such as Google, LinkedIn, and other websites using tools like Google Chrome extensions. Once the data is collected, I use it for daily marketing activities and analyze the data to make it more useful for targeting future audiences. Additionally, I was responsible for maintaining daily leads generated from marketing efforts and ensuring regular follow-up with those leads. It was my responsibility to track and update the progress of these leads, as well as produce daily reports related to data management and marketing activities. Overall, my role as a data manager at Kinkob Kreation has involved handling data collection, organization, analysis, lead management, and reporting to support the company's marketing efforts and ensure data accuracy and efficiency

Sales executive at kinkob kreations

sales executive

As a sales executive at Kinkob Kreation's, I had the opportunity to not only focus on my core responsibilities but also actively engage in sales activities. This gave me a chance to enhance my skills and establish fruitful relationships with clients. Interacting with clients on a regular basis provided valuable insights into their needs and preferences, ultimately broadening my perspective on customer interactions. Through this experience, I developed a deeper understanding of how to effectively handle clients and provide the best possible service to meet their requirements.
