 [LinkedIn](#)

Dynamic and detail-oriented React Native Developer with 2.5 years of extensive experience in designing and developing high-quality, scalable mobile applications. Proficient in JavaScript, TypeScript, Redux, and Firebase, with a proven ability to optimize app performance and enhance user experience. collaborating effectively with cross-functional teams to deliver solutions. strong problem-solving skills and a passion for leveraging modern technologies to drive development in mobile app projects.

Skills

- JavaScript
 - TypeScript
 - React Js
 - Expo
- Git (GitHub/GitLab)
 - Firebase
 - Redux
 - Animations
- Team Collaboration
 - Problem-solving
 - Debugging
 - Adaptability

Experience

- **React Native Developer (*EquisInfo-Tiez Interactive, Rajkot*)**

March 2023 - Present

 - Consistently delivered high-quality work under tight deadlines, maintaining exceptional standards even in high-pressure environments.
 - Developed reusable components, significantly accelerating development cycles and improving overall code maintainability.
 - Collaborated closely with product owners to define requirements, prioritize tasks, and set realistic timelines for delivering new functionality.
 - Enhanced application performance through code optimization and the implementation of best practices, resulting in more efficient and reliable systems.
- **Junior React Native Developer (*Bitnet infotech*)**

Jan 2022 - Feb 2023

 - Collaborated closely with clients to understand their business needs, providing tailored, effective solutions that addressed core challenges and delivered value.
 - Developed new features based on stakeholder feedback, demonstrating a strong understanding of user needs and aligning development efforts with business objectives.
 - Led the upgrade of outdated React Native libraries to the latest versions, resulting in improved performance, stability, and streamlined development processes.
 - Successfully mentored junior developers in React Native best practices, fostering a culture of continuous learning, collaboration, and skill growth within the team.

Education

- **Krishna International Science school**

2016 - 2018

 - HSC - Science
 - Percentage: 78%
- **Gujarat Technological University**

2018 - 2022

 - Bachelor of Engineering, Computer
 - CGPA: 7.8

Projects

Nissan Sales Assistance (App and Web)

- Worked on app from scratch, Integrated **Firestore** push notification and handled notification tap navigation.
- Created Responsive Website with React js and tailwind css
- Handled role-based functionalities.
- Integrated **View/Share documents** functionality, added WhatsApp link feature
- Added Image Picker to capture driving licence
- Added refresh token functionality and collaborated with the backend on multiple login scenarios
- Handled different security concerns raised by VAPT team
- **Published to Play Store and Made Website Live**

TLI YFS

- Developed an internal app for TLI company
- Implemented **Download/Share/View PDF** functionality
- Implemented **Microsoft Login**
- Handled foreground/background scenarios for authentication

Compligenix

- Developed a comprehensive audit application from scratch for auditors to assess company dealerships
- A key feature I implemented is a dynamic nested question-answer interface capable of handling various types of questions, including photo and video feedback
- Implemented Video and Audio viewer and multi-role logins

E-Smart

- Collaborated closely with the Renault India team on the E-smart application for Enquiry management.
- My responsibilities included planning, development, debugging, and client meetings
- Used **Redux-Persist, Redux-Saga**
- Improved Code Logically and Code Quality.
- Worked with **Monorepo**.

Score Capture

- Worked on ScoreCapture, a live-scoring golf app featuring digital scorecards, GPS, and analysis tools.
- Collaborated directly with the client throughout the development process.
- Improved app logic and developed complex functionalities to enhance user experience.
- Handled feature implementations, bug fixes, and ongoing support for 6 months.

Energi Media (Website To App)

- developed this versatile application to seamlessly combine podcasts, news, YouTube videos, and content from the website www.energi.media.
- Created responsive UI/UX
- Handled asynchronous functionality when Playing Audio
- Worked on internet lost connection functionality
- Implemented Youtube Video Api and Music Player for Podcasts

Projects

● Alpha PTE App

- Collaborated on the development of Alfa PTE, a student practice app for PTE Academic preparation.
- Implemented key features including Google Speech Recognition API, Live Update, and Force Update functionality.
- Worked closely with the team to debug, enhance features, and improve overall code and project structure.
- implemented Multi-language and multi-theme support
- Contributed to UI changes to enhance user experience and engagement.
- Optimized the project from the ground up for performance and efficiency.
- Upgraded the project to the latest React Native version for better stability and performance.

● Sellina AI

- Worked in a Team to develop this application.
- Created custom neomorphic shadows for this app.
- used custom SDKs to get the data for app.
- Developed fully dynamic and responsive UI.

● Other Projects

- Contributed to Mathry (Upgrade), Hanuman Chalisa (Upgrade), and Stockly (feature implementations), and many others.
- Experienced in Python scripting and React.js development.
- Created Python scripts for translation and excel modifications.
- Worked on upgrades, feature implementations, and project enhancements across multiple applications.
- I Have Worked on more than 15 projects in react native

Certifications

● Architecting with Google Compute Engine

● Google IT Support Professional Certificate

● AI For Everyone
