<ul style="list-style-type: none">Helped build an E-learning platform to replace manual processes.Used ASP.NET, HTML, CSS, and JavaScript for front-end design.Worked with SQL Server for backend data storage.	

PROJECTS

College Project – HV Desai College

Technologies: HTML, CSS, JavaScript, Bootstrap

Description:

Worked on building a responsive web application using HTML, CSS, JavaScript, and Bootstrap. Developed modern UI components, implemented interactive behaviour, and ensured mobile-friendly design across all screen sizes.

Key Responsibilities:

Designed and developed the entire front-end interface

Added interactivity using JavaScript

Ensured complete responsiveness with Bootstrap

Wrote clean, structured, and reusable code

Outcome:

Enhanced skills in front-end development, UI/UX design, responsiveness, and web performance optimization.

Flair Consultancy

Technologies: HTML, CSS, JavaScript, Bootstrap 5

Description:

Developed a fully responsive and modern web interface for Flair Consultancy using HTML, CSS, JavaScript, and Bootstrap 5. Focused on clean UI design, smooth navigation, optimized layouts, and cross-device compatibility.

Key Responsibilities:

Built responsive web pages using Bootstrap 5 grid and utility classes

Created interactive UI components using JavaScript (menus, forms, buttons)

Designed modern layouts, color schemes, and typography for a professional look

Ensured high performance and mobile-responsive design

Wrote clean, reusable, and maintainable code

Outcome:

Improved practical expertise in frontend development, Bootstrap 5 components, responsive UI design, and website performance optimization.
