LANGUAGES

Hindi, English

PROJECTS HANDLED

Project: E-commerce Portal (PHP Laravel)

- ⌚ Developed a comprehensive E-commerce portal using PHP and Laravel, featuring user authentication, product management, and shopping cart functionality.
- ⌚ Achieved responsive design and cross-browser compatibility, optimizing user experience across multiple devices.

Project: User Video Channels Platform (PHP CodeIgniter)

- ⌚ Spearheaded the creation of "Yopromo," a video channel platform enabling user registration and channel management, built with PHP and CodeIgniter.
- ⌚ Designed intuitive user interfaces, ensuring optimal experience and visual appeal across devices.

Project: Informative Sites for Clients' Businesses (Various Technologies)

- ⌚ Developed numerous client websites utilizing PHP, WordPress, JavaScript, Bootstrap, HTML, and CSS, customizing themes and plugins for specific requirements.
- ⌚ Enhanced user interaction and site responsiveness, employing JavaScript and Bootstrap for dynamic and engaging user experiences.

Project: Landing Page for Car Dealers (Frontend Development)

- ⌚ Led the development of landing pages for major car brands in the USA, improving online presence and model specification visibility.
- ⌚ Managed a team of over 10 members, directly contributing to client support and project success.

Project: VDDS- Verizon (Application Migration)

- ⌚ Played a pivotal role in migrating the "VDDS" application from Java Struts and MVC to a modern React and Java MVC architecture, focusing on scalability and performance.
- ⌚ Redesigned and rebuilt front-end components in React.js, significantly improving responsiveness and user experience.

Project: PageX (CMS Development)

- ⌚ Developed "PageX," a CMS tool using React for the UI and Laravel for the backend, facilitating the creation of responsive landing pages.
- ⌚ Reduced manual coding time from 9 hours to 3 hours, streamlining the process of generating consistent and error-free HTML and CSS code.
