PROJECTS

Naqi

06/2021 - 02/2022

Naqi is service based or Product based company in Saudi Arbia which provide services in water filter or Products. We had managed Naqi's Android app and Crm. Naqi Crm which is used by agents to create new customer in crm, create appointment and many more operations. Agent Select Technician while creating appointment, so that appointment will assign to selected technician. After Create appointment will show to technician in Android app. Technician will go to customer as appointment time and provide his service to customer. We had managed update and feaures in both React website crm or admin Panel (React JS with Typescript) and technician android mobile app (React Native).

Naqi Android App (React Native): https://install.appcenter.ms/orgs/Naqi-Alnaba/apps/Naqi-PROD/distribution_groups/Testers

Datagma

(03/2022 - 09/2022)

Datagma is a data API that lets enrich person and company records with social, demographic, and more. It enables to find employees for any companies. This project based on Vue JS ,Python ,Hubspot OAuth ,PipeDrive Integration and Chargebee Payment Gateways for Subscriptions or Pricing Page etc. For the deployment I have used the AWS cloud.

Web App (Vue Js): <https://app.datagma.com/>

RENathletics

(03/2023 - 07/2023)

renatheletics is the platform of design and manufacture the highest-quality, custom and performance-driven volleyball uniforms. The Technologies that I have used in the Projects is React Js with Typescript, Redux Toolkit and Payment Gateway like Stripe. The admin panel were created and web app for the store creation were developed and delivered to the client within 3 months.

Sleepcountry

(07/2023 - 11/2023)

Sleepcountry is a Canada ecommerce brand. This application is created in Bigcommerce. I have added the custom pages such as Near by Stores, Store details and modified existing pages PDP, PLP, Wishlist, Homepage, Cart and Checkout. Integrated custom checkout SDK that is created in React.JS (TypeScript). Modified checkout based on the UX design and acceptance criteria that mentioned Jira software. Added payment gateways such as Affirm in Checkout SDK.

Creattie

(11/2023 - 12/2023)

This project provides the free and premium icons, animated icons, Illustrations and Animated Illustrations. Admin adds these types and uploads on the server with assigned categories. I have worked on the Alogolia integration in this project and makes the filters functional. Fixed search issues by keyword and icons names. Also fixed other bugs in the site. Then pushed the code in Git, then client deployed updated source code on the server.

DEKRA

- DEKRA, founded in 1925, is the world's largest independent, non-listed expert organization in testing, inspection, and certification. They provide comprehensive services and solutions to enhance safety, security, and sustainability.
- This project was developed using Angular technology. I contributed to the Admin Panel and various dashboards, such as the Network User and ShopUser dashboards.
- Collaborated closely with the team, executing daily tasks as assigned by the client.
