<b>Title</b>	<b>Cadre</b>
<b>Domain</b>	Staffing Solution

### **Brief about the project**

Cadre is a staffing solution, online marketplace primarily used in USA. It helps to manage freelancers and connects to thousands of new meeting planners, event staff, virtual moderators, audio-visual technicians, and other talented event industry.

Two type of account creation as a

- 1) Client (Planner)
- 2) Freelancer (Travel Director)

Client can create project (event), create positions according to specific skills, certification required and post the project. Interested freelancers can place bid with their daily rate, and client can select as per his choice and hire the freelancer. Once hired, the payment is shifted to freelancers' escrow which is released from time to time via cron.

Features include

- 1) Client can create private event and send invitation to freelancers to place bid.
- 2) Client can search and sort through candidates by location, skill set, price location, rating review, competitive offer. Can schedule a zoom meeting with freelancer once bid is placed.
- 3) Client can create his own team by favoriting freelancers . Once contracted, can add bonus, advances and can refund also.
- 4) Client can download summary of payments including approved expenses from event in PDF, funding history report in excel format.
- 5) Freelancer with clean background check is allowed to place bid. This check is done checkr (the same background check company used by another marketplace like Uber, Lyft)
- 6) Freelancer can set his own pay rate, make offers on projects, and get paid the amount once agreed to with the client.
- 7) In-app messaging lets client directly coordinate project details with freelancer all in one place.
- 8) The payment processing to freelancer is being implemented by Stripe API.
