## PROJECTS

### 1. Ataraxia

**Ataraxia** is a comprehensive society management mobile application designed to streamline and simplify various administrative tasks for residents and staff of housing societies. The app offers a range of features to enhance communication, manage facilities, and improve overall living experiences within the community.

### 2. PetroB

**PetroB** is an advanced fuel management tablet application designed specifically for corporate users to efficiently manage and monitor fuel transactions, rewards, and reporting. The app offers a range of features to streamline fuel procurement, tracking, and analysis for corporate clients.

### 3. Tac-Club

**Tac-Club** is an online exam mobile app designed to provide a user-friendly platform for conducting exams remotely. It may include features such as exam scheduling, question delivery, and result generation.

#### **4. Security Registers**

**Security Registers** focus on managing guard duty, and serves a critical role in ensuring the safety and efficiency of security personnel. Clock-in and clock-out functionalities combined with location tracking can significantly enhance accountability and monitoring capabilities.

#### **5. Find Me**

**Find Me** is a mobile app that sounds like a valuable tool for both local stores and shoppers! By connecting local people with nearby stores and helping them locate specific products easily, it enhances the shopping experience and fosters community engagement.

#### **6. EPH**

**EPH** app sounds like a comprehensive solution for equine businesses and professionals to streamline their operations and enhance their relationships with horse owners. By integrating various business tasks such as invoicing, bookings, reminders, and record-keeping into a single platform, it offers convenience, efficiency, and improved communication.

#### **7. The Stretch Hub**

**The Stretch Hub** online program sounds like an invaluable resource for individuals looking to improve their flexibility, mobility, and overall well-being. By offering diverse stretching sessions tailored to different levels and goals, it caters to a broad audience and addresses various needs, from correcting posture and relieving pain to enhancing performance and maintaining a healthy lifestyle.
