I am an experienced Software Engineer with 3+ years of experience in developing react native applications across iOS and android platform and React.js for web application. Proven ability to develop user interface components with React Native/React.js and troubleshoot complex issue. My expertise includes developing, maintaining, and optimising software applications on multiple platforms. Looking forward to adding value through my expertise.

Experience

- **Software Engineer - Excellon Software Pvt. Ltd.** 2021 - Present
 - As a Software Engineer at Excellon Software Pvt. Ltd., I am responsible for developing and maintaining software solutions for clients. During my time at the company, I gained valuable experience in coding, problem solving and collaborating with cross-functional teams.
 - Developed and maintained React native components, screen, features for the mobile app. (Android Development and iOS Development). Knowledge of deployment of apps to App store and Play store.
 - Conducted thorough testing to ensure quality and functionality.
 - Responsible for developing and manage B2B and B2C applications.
 - Worked with a team of developers to meet project deadlines.

Projects

- **KTM India, Bajaj Connect IB, Husqvarna - React Native**
 - All these applications are B2C developed for Bajaj. More than 1 Lakh user are using this app for vehicle service booking, service pay and live status of their vehicle service and service history. Also, those apps contain more features like nearest dealership, fuel pump, service complains etc.
- **Altigreen, Teja, CLPL - React Native**
 - All these applications are B2B app which are managed at dealership for vehicle enquiry and followups, etc
- **Ather, Altigreen, Ford - React Native**
 - All these applications are B2B app which are managed at dealership for vehicle service booking, job card details, service history, etc.
- **Service Application (PWA) - React.js**
 - It is the ongoing project which is developing in react.js PWAI.e., Progresive Web App. PWAs provide native like experiences to your users on supporting devices. This application will managed at dealership for vehicle service booking, job card details, etc.

Education

- **Priyadarshini Bhagwati College of Engineering** 2017 - 2021
 - B.E. - Computer Science and Engineering
 - 8.85 CGPA

Skills

- React Native
- React.js
- Redux/Redux Toolkit
- REST APIs
- Javascript and ES6+
- Front-End Development
- Firebase Integration
- UI/UX Design
