SOURABH PATIL

Frontend Developer

PROFILE

I have two years of hands-on experience in UI/UX development, specializing in crafting user-centric designs for both web and mobile applications. I thrive on challenges and am actively seeking opportunities to further enhance my skills while contributing to the creation of engaging user experiences. Currently, I am expanding my expertise by delving into React.js development, aiming to integrate its capabilities into my toolkit for creating seamless and dynamic user interfaces.

My primary focus throughout has been to create

- **Innovating user-centric UI/UX**
- **Responsive interfaces with React.js**
- **Pixel-perfect UI implementation**

EXPERIENCE

Noitavonne

2022 - PRESENT

Software company in Kolhapur, Maharashtra

- Designed and developed professional user interfaces using Bootstrap, HTML, CSS, JavaScript, jquery and React.js.
- Conducted in depth user research for user centric design solutions.
- Implemented pixel perfect UI designs with a focus on responsive web design.
- Worked on REST APIs for seamless frontend-backend integration.
