Professional Experience

PHP DEVELOPER,
Queenzend Web Solution
2022 – present | Pune, India

Experienced PHP Web and Software Developer seeking a challenging full-time role in software development. Leveraging a robust technical background and a drive for innovation to enhance project success. Proficient in PHP, HTML, CSS, JavaScript, and various languages, with expertise in popular web frameworks, databases, APIs, and web services. Skilled in project management, adept at collaborating within teams, and delivering high-quality solutions. Adept at independent work, project ownership, and end-to-end execution. Excited to apply skills and experience to contribute to an innovative and dynamic team's growth and success.

Profile

As a seasoned PHP Web and Software Developer, I'm eager to leverage my expertise in a dynamic full-time role. With a solid technical foundation and a drive for innovation, I'm poised to make meaningful contributions to projects. My proficiency spans PHP, HTML, CSS, JavaScript, and diverse frameworks, alongside adeptness in databases, APIs, and web services. I'm also known for effective communication, collaborative prowess, and autonomous project ownership. My experience positions me as a valuable asset for software development endeavors, ready to empower and elevate a dynamic team

Projects

EKYC
This project aimed to develop an advanced Electronic Know Your Customer (eKYC) solution by leveraging the power of Angular for the front-end and CodeIgniter for the back-end. The solution aimed to streamline the customer identification and verification process while ensuring data security and compliance.
PROJECT OUTCOMES -
- *Efficient User Experience*
- *Data Accuracy and Verification*
- *Faster Customer Onboarding*
- *Seamless Integration*
- *Compliance and Auditability*

DUBAI NATIONAL INSURANCE(MOTOR)
The Dubai National Insurance (Motor) project was undertaken to create a comprehensive digital platform for managing motor insurance policies and claims. Leveraging cutting-edge technologies, the project aimed to enhance the efficiency, accuracy, and accessibility of insurance processes for both customers and insurance providers.
PROJECT OUTCOMES-
- *Policy Management Enhancement*
- *Real-time Premium Calculation*
- *OCR-Powered Document Processing*
- *Effortless Quotation Generation*
- *Quick Policy Issuance*
