Pune, Maharashtra, India

PROFESSIONAL SUMMARY:

Having 2 years of experience as a fullstack software developer well-versed in the complete software development life cycle. Proficient in utilizing a range of tools and technologies including Visual Studio, XAMPP, JavaScript, Bootstrap, AJAX, PGSQL, and API integration. Adept at producing and consuming REST APIs using cURL and skilled in API testing using Postman. Collaborative team player, working closely with solution architects to ensure high-quality deliverables. Known for strong problem-solving skills, bug fixing expertise, and dedication to producing efficient, reusable, and reliable code.

SKILLS:

- **Development Environment:** Visual Studio, XAMPP
- **Web Technologies:** JavaScript, Bootstrap, AJAX
- **Database:** PGSQL (PostgreSQL)
- **Framework:** CODEIGNITER
- **API Integration**: REST API, cURL
- **Application Software**: APACHE
- **Testing Tools:** Postman
- **Full Software Life Cycle:** Analysis, Design, Development, Debugging, Testing, Retrofit, Deployment
- **Team Collaboration:** Worked closely with solution architects to ensure quality solutions
- **Documentation:** Proficient in preparing and maintaining project documentation
- **Problem Solving:** Strong ability to identify and resolve technical issues

EDUCATION

- o **Bachelor of Science (Computer Science)**
  Haribhai V. Desai College,
  Pune, June 2021 (68%)
- o **Higher Secondary**
  Vasantrao Sanas Jr. College,
  Pune, March 2018 (56.67%)
- o **Secondary**
  Vidyapeeth Highschool,
  Maharashtra, March 2016 (68.80%)

CERTIFICATIONS:

- ✓ Python Programming Basic to Advance (Issuing Organization: Udemy)
- ✓ Python for Data Science
- ✓ Data Science (Issuing Organization: Udemy)

EXPERIENCE:

Paymint Fintech Private Limited, Pune.
(October 2021 to till the date)

- Led the end-to-end software development life cycle of various projects, encompassing analysis, design, development, debugging, testing, retrofitting APIs, and deployment.
- Successfully developed and maintained the Products section of the software, offering multiple operational functionalities through user profiles.
- Demonstrated expertise in producing and consuming REST APIs using cURL, enhancing system integration capabilities.
- Conducted comprehensive API testing using Postman, ensuring seamless and error-free API interactions.
- Collaborated closely with solution architects to ensure the delivery of high-quality software solutions that met client requirements.
- Played a key role in requirement analysis, design, coding, testing, and debugging phases of development.
- Prepared and executed detailed test plans, contributing to thorough manual testing processes.
- Proactively identified and resolved bugs, enhancing the overall quality and performance of the software.
- The design, construction, and maintenance of high-performance, reusable, and reliable code.
- Actively participated in knowledge sharing activities within the team and collaborative learning environment.
- Maintained comprehensive project documentation, ensuring clarity and accessibility of project details.
- Implemented security best practices throughout the development process, ensuring the integrity and confidentiality of sensitive data. Collaborated with security experts to conduct regular security assessments.
- Implemented Agile methodology to enhance project efficiency, fostering collaboration among cross-functional teams and delivering high-quality results within tight timelines.
