+919624519447

I am an accomplished software developer with a solid 5+ years of experience in web development, offering expertise in crafting tailored solutions for various projects, including those within the banking and educational sectors. My proficiency extends to both freelance and personal projects, where I've consistently met client requirements and delivered exceptional results.

Work Experience

Freelance Web Developer

Upwork

August 2022 to August 2022

• Crafted pixel-perfect, responsive UIs using React.js and Angular for web and mobile.

• Collaborated as a full-stack developer on consumer-focused platforms, inte- grating third-party services like analytics and SSO with Node.js, ReactJS, and

PostgreSQL.

• Presented sprint feature demos to stakeholders for banking and CRM projects.

Full Stack Developer

Zeus Learning Pvt Ltd.

February 2021 to February 2021

• Led end-to-end development of ed-tech products, managing both fron- tend(Angular 8 to 16) and backend(Django, .Net, NodeJS).

• Designed responsive and appealing user interfaces for clients.

• Mentored junior developers and facilitated code reviews to encourage contin- uous improvement.

Software Developer - Intern

Bitsend IT Solutions

September 2019 to January 2020

• Spearheaded the development of WordPress-based e-commerce web appli- cations, optimizing user experiences.

• Integrated WooCommerce plugins and authored versatile REST APIs for seam- less cross-platform functionality.
