Aishwarya Gaikwad

Software Developer

⊚ India • 📞 +91 8308371245 • @ aishg7242@gmail.com

Summary

Experienced software developer with 2+ years of expertise in designing, developing, and maintaining software applications. Proficient in programming languages such as HTML, PHP, JavaScript, and Flutter.

Skills

PHP Development:
Proficiency in PHP programming language, including frameworks like Laravel or CodeIgniter. Ability to develop server-side logic, database integration, and create dynamic web applications using PHP.

Flutter Development:
Experience in developing cross-platform mobile applications using the Flutter framework. Familiarity with Dart programming language and Flutter's UI toolkit for building visually appealing and responsive mobile apps.

Database Management:
Knowledge of working with databases such as MySQL. Ability to design and optimize database schemas, write efficient SQL queries, and handle data storage and retrieval operations.

Front-end Development:
Proficiency in HTML, CSS, and JavaScript to create user interfaces and ensure a seamless user experience in both PHP and Flutter applications.

Experience

Webotix Technology	July 2021 - March 2024
Software Developer	Satara

- Creating and managing reusable, dependable, and efficient code. Integrating data storage solutions such as MySQL databases.

Education

BCA	78%

Dhananjayro Gadgil College of Commerce, Satara

Projects

Rocklike product billing system
Technologies : Php, html, css, javascript, mysql database.

Customer Management: Users can add, edit, and delete customer information, including name, contact details, and billing address. The system maintains a database of customers, making it easy to access their billing history. Billing and Invoicing: Users can create invoices for customers based on their purchases or subscription plans. The system automatically calculates the total amount, taxes, and any applicable discounts for each invoice.

AccBuk ERP

To develop a robust and user-friendly ERP system, AccBuk ERP, that streamlines accounting operations for businesses, focusing on efficient management of purchase and sale transactions. AccBuk ERP is an integrated accounting software designed to simplify and automate the financial operations of businesses, with particular emphasis on purchase and sale processes.

BCCI Coach Review System
Technologies : Php, html, css, javascript, codeigniter, mysql database.

User Registration and Authentication: Users can create accounts, log in, and authenticate themselves to access the review system. Review Submission: Coach can submit reviews for player, providing ratings, comments, and feedback on their playing abilities and performance.

Daandon

This project involves creating a web application that dynamically generates bar charts and pie charts based on user input from submitted forms. The application is built using PHP for server-side processing and JavaScript for client-side interactions and rendering charts.
