API	1) PayPal, PayU 2) Google Map, 3) Razor Pay, 4) Paytm Checkout, 5) QwikGift API (https://developers.woohoo.in/) 6) Route Mobile What's up API – BSP (https://routemobile.com/) 7) Key Reply What's up API - BSP

Project – B-Connect What's Up Push Notification System

Platform	Windows
Tools and Languages	Laravel Framework, OOPS, MySQL, Redis Server, Node JS Socket IO, HTML, Bootstraps, JS, jQuery, RESTful External API,
Description	This project is a SaaS platform, this project can manage multiple client dashboards.
	Client users can create their own contact groups, WhatsApp templates and then create campaigns.
	Campaigns can then be run on the contact groups created. WhatsApp messages are sent to the contact number.
	In campaigns, we may send a WhatsApp template to a contact number with unique information. E.g Adding customer name with each customer message.
	Campaign sent messages, delivered messages, read messages, failed messages are all managed on the reporting dashboard.
	All dashboards are showing datapoints and managing all reports.
Team Size	1
Project URL	https://communication.birdvision.in/
