PROFESSIONAL SUMMARY

Software Engineer with 3+ years of experience in the field. I have developed several software applications from scratch and have also worked on enhancing existing applications. My greatest achievement has been developing an application for a leading automotive company that significantly improved their customer service. My strongest qualities are my attention to detail and problem solving skills which have enabled me to debug complex software systems. Additionally, I have extensive knowledge of various programming languages like PHP, Codeigniter, HTML, Javascript, jQuery etc. and including SQL, AWS, Web API, Payment gatway integration and may more.

EXPERIENCE

2021 - 2023

Senior Software Engineer
Hridayamsoft Solutions Pvt. Ltd. / India, Mumbai

As a Senior Software Engineer at Hridayamsoft Solutions Pvt. Ltd., I was responsible for leading a team of developers in designing and implementing software solutions for clients. I utilized my skills in coding, problem-solving, and project management to deliver high-quality products within strict deadlines.

- Led a team of 5 developers in delivering successful projects
- Designed and implemented scalable software solutions
- Conducted code reviews and provided technical guidance to junior team members
- Developed custom software solutions for client's unique needs
- Proactively identified and resolved technical issues to improve overall product quality

2020 - 2021

Trainee Developer
Spark Innotech / India, Thane

During my time as a Trainee Developer at Spark Innotech, India, I gained valuable experience in software development and project management.

- Assisted senior developers with coding and testing
- Collaborated with team members to meet project deadlines
- Worked on projects using various programming languages and tools
