SUMMARY

Results-driven Full-Stack Developer with 1+ years of experience designing and implementing scalable web applications. Expertise in modern JavaScript ecosystems including React, Next.js, and Node.js, with proficiency in headless CMS platforms. Proven ability to deliver end-to-end solutions from concept to deployment, focusing on performance optimization and user-centric design.

EXPERIENCE

FUNKASH TECHNOLOGY | Full-Stack Developer
Feb 2025 – Present | Remote

- Architected and developed **Flowpense**, a comprehensive expense management platform featuring real-time analytics and financial reporting capabilities with Next.js admin dashboard
- Engineered **Limpiar**, a service management platform implementing booking systems, calendar integrations, and administrative dashboards for cleaning businesses

EKLAVYA SOLUTION | Frontend Developer Intern
Oct 2024 – Jan 2025 | Remote

- Contributed to the development of a healthcare platform utilizing React and TypeScript with responsive design principles

PROJECTS

FLOWPENSE - EXPENSE MANAGEMENT PLATFORM | Next.js Admin Dashboard & Financial Analytics

- Developed a comprehensive expense tracking system with advanced financial analytics, reporting features, and real-time data visualization
- Implemented expense categorization, budget allocation tracking, and spending trend analysis with interactive dashboards
- Utilized Next.js 14 App Router, JavaScript, and Tailwind CSS for optimal performance, maintainability, and SEO optimization

LIMPIAR - SERVICE MANAGEMENT PLATFORM | Booking System & Admin Dashboard

- Built a complete service management platform for cleaning businesses with booking system, admin panel, and customer portal
- Implemented calendar synchronization, service tracking, customer management, and automated notifications
- Developed using React, Node.js, MongoDB with RESTful API architecture and secure authentication

IDEASPRINT - SERVICE PLATFORM | CMS-Driven Website with Strapi Integration

- Developed a service-oriented website with headless CMS integration using Strapi for dynamic content management and dynamic content rendering, service catalog, pricing tier presentations

FULL-STACK BOOKSTORE APPLICATION | Authentication System & CRUD Operations

- Engineered a complete bookstore application with user authentication, inventory management, and shopping cart
