SUMMARY

Full-stack developer with hands-on experience building web and mobile applications using React.js, React Native, Flutter, and Node.js. Skilled in designing scalable solutions with MongoDB, MySQL, and REST APIs, and experienced in deploying applications on AWS. Proven ability to collaborate with cross-functional teams, deliver user-focused features, and improve system performance. Passionate about writing clean, maintainable code and driving projects from concept to deployment.

WORK EXPERIENCE

Finixia Dedecons Pvt. Ltd.

Full Stack Developer Freelancer   *Nov 2024 - Present*

- Developed and deployed SaaS platforms using **React Native** (mobile), **MERN stack** (web), and **AWS cloud services (EC2, S3, Lambda)**.
- Built and optimized **REST APIs** with Node.js/Express, integrated **Redis caching** and **MongoDB clusters**, reducing latency by 25% and improving uptime by 30%.
- Implemented responsive UI and mobile features, ensuring seamless performance across platforms and scaling to support **10k+ active users**.

PracticeGuru

Software Developer   *Jun 2024 - Nov 2024*

- As a SDE intern at PracticeGuru I worked on the Nexus (software for tax professionals).
- Maintained and optimized the company's mobile app (5K+ active users) using React Native and Redux, improving load time by ~20%
- Led development of 3 core features in Nexus software using **MERN stack (MongoDB, Express.js, React.js, Node.js),** mentoring 1 junior intern and ensuring on-time delivery within a 2-week sprint.

Devcorps

Software Engineer Intern   *Sept 2023 - Feb 2024*

- As a SDE at Devcorps I had the opportunity to work on a complex project named **Reno** and take on additional responsibilities.
- Contributed to full-stack development using React Native, React JS, Node JS, Flask, and MongoDB, delivering new features ahead of schedule.

Manastik

Software Engineer Intern   *July 2022 - Nov 2022*

- During this internship I was responsible for working with Android Technologies, pertaining to front-end mobile application development and api integration for the application named **Dementia App.**
- I worked on the technology stack of **Flutter, dart.**

EDUCATION

Bachelor of Technology (B.Tech) in Electronics and Communication Engineering   *Dec 2020 – June 2024*
Indian Institute of Information Technology,Nagpur

PROJECTS

Melofilms | *React, Node JS, MongoDB*   **Link**

- Designed and developed a responsive website for a film production company to showcase movies and production highlights.

- Increased user engagement by ~**40**% through optimized UI/UX..

Happ notes app | *React Native, Node JS, MongoDB*   **GITHUB**

- Developed a cross-platform mobile application designed for guitar enthusiasts.

- Implemented structured **video tutorials** to help **100+** users learn guitar techniques step by step.

- Built a scalable backend with **Node.js & MongoDB** for storing user data, notes, and tutorial progress

- Integrated a clean and responsive **UI with React Native**, ensuring smooth performance across Android and iOS.

- Focused on user experience, offline accessibility, and easy navigation for music learners.

TECHNICAL SKILLS

Languages   : JavaScript, HTML, SQL, Python.
Library**/**Frameworks   : React JS, Flutter, React native, Firebase, Cloud Firestore.
Backend Technologies   : Node.JS , Express.JS , REST APIs , MongoDB , MySQL.
Tools & Platforms   : AWS,Jira,SQL,VS Code, Android Studio, GitLab, GitHub, Postman
