

**SHASHANK TUKARAM MALPURE**

Course : MBA, Master of Business Administration, 2022

Email : shashanktm20.mba@coep.ac.in

Mobile : 9762173468

CGPA : 8.83

**ACADEMIC DETAILS**

COURSE	SPECIALIZATION	INSTITUTE/COLLEGE	BOARD/UNIVERSITY	SCORE	YEAR
UG	Mechanical Engineering	Sinhgad Institute of Technology, Lonavala	Savitribai Phule Pune University	63 %	2016
CLASS XII	Science	G.D. Sawant Arts, Commerce, Science & B.C.S College, Nashik	Maharashtra State Board of Secondary and Higher Secondary Education (MSBSHSE)	68.67 %	2011
CLASS X		SETH L.N.S. HIGH School, Jalgaon	Maharashtra State Board of Secondary and Higher Secondary Education (MSBSHSE)	86.76 %	2009

SUMMER INTERNSHIP / WORK EXPERIENCE

Project Lead, Sushrut Designs Pvt Ltd Formulation of a process for the organization for its expansion and growth across various geographical locations; as well as a new logistics system based on the newly suggested forecasting process - Implementation phase.	Mar 2021 - May 2021
Operations Engineer, APTIV - Delphi Automotive ◦ Operations Manager for Assembly Line for Mahindra XUV500, Mahindra TUV300 & Volkswagen Vento ◦ Responsible for Implementation & Sustenance of Compliances for MSES-A ◦ Responsible for People Management and their Skill Enhancement ◦ TPM Implementation & Sustenance ◦ Planning for Adherence to Customer Schedule ◦ Differentiating apart between Sporadic & Chronic Causes and Solving them through Corrective Actions, Projects & QC Tools by using Daily Work Management Method ◦ Team Members in Problem Solving Projects ◦ Ensuring Preparedness for various Audits	Dec 2017 - Nov 2019
Trainee Engineer, CEAT Ltd ◦ Operations Manager for Truck & Tractor Tyre Division ◦ Responsible for People Management & Skill Enhancement ◦ Team Member for Preparation of Deming Award Exam ◦ Preventive Maintenance Management ◦ Ensuring Preparedness for Various Audits ◦ Running improvement projects through TQM & Quality Circle ◦ Team member in Defect & Scrap Reduction Projects	Dec 2016 - Dec 2017
Intern, ARK Technosolutions Advanced Robotics & Embedded System with Solid Works - Awarded by Indian Institute of Technology, Delhi	Jun 2013 - Jun 2013

PUBLICATIONS

Review on Gyrratory Mechanism of Spraying Machine for cylindrical case Journal name: International Journal For Science And Advanced Research In Technology Publication date: Mar 15, 2016 The paper states the desirable mechanism which fulfils the objective of a machine that is adaptable, flexible and takes less space and is easy to assemble and disassemble. The machine will be used to coat liner solution on the inner surface of the small calibre motor of Rocket and Missiles at HEMRL, DRDO

Subjects / Electives	Corporate Culture, Industrial Engineering, Advanced Excel
Technical Proficiency	Excel Pivot, Pro-E Wildfire 2.0, Excel, CATIA

PROJECTS

Operational Finance & Fund-Raising - EV Business Development (DBYT Dynamics, Pune) ◦ DBYT Dynamics is a startup operating in the domain of Electric Vehicle Renting and Leasing. ◦ Figuring out operational finance and assistance in fund-raising ◦ Consulting with the founder in decision making at the pricing and the agreement phase	Jul 2021 - Present
Reducing Defective PPM due to unseated terminal, Cross-wire & Wire gauge Interchange in XUV 500 Cockpit W/H Assembly - Quality Improvement	Jan 2019 - Aug 2019
Reduction in Scrap Tyre due to "Close bead" Defect - Quality Improvement	Jul 2017 - Nov 2017
Reduction in Defect due to "Toe-Flash" Cured Tyre - Quality Improvement	Jul 2017 - Oct 2017

Reduction in Defects due to "Layer Separation" in "HCL Super 10.20" tyre - Quality Improvement	Jun 2017 - Sep 2017
Reduction in Cured Tyre Scrap due to "Leaky Bladder" - Quality Improvement	May 2017 - Jul 2017
Improving the effectiveness of the cured tyre's inside inspection process - Quality Improvement	Mar 2017 - May 2017
Patent of - "Gyratory Mechanism of Spraying Machine for cylindrical case" - Aerospace & Missile	Feb 2016 - Present
Working on Patent for the machine designed for Liner Coating Machine designed for HEMRL, DRDO	
B.E. Project - Defense Research and Development Laboratory	Jul 2015 - Jun 2016
◦ Project Lead at DRDO for "Design of Rotary Mechanism for Liner Coating Machine for Rocket Motor of Small Caliber" ◦ Performed a Role in Key Concept Development ◦ Built a Working Scaled Model for Demonstrating Feasibility. ◦ Published a Technical Paper in International Journal for Science & Advance Research in Technology (I.J.S.A.R.T.).	
SAE SUPRA - Automotive	Jul 2014 - Jun 2015
◦ Leader of a team of 25 - Designed & Built an F1 Car ◦ Aerodynamics Designer to Reduce Drag at High Speed ◦ Successfully Integrated Aluminum Honeycomb Monocoque Chassis ◦ Responsible for Procuring Components from India, France & Japan; and sponsorship partner	

POSITION OF RESPONSIBILITY	
Chairperson - SAE INDIA College Level - SAEINDIA Collegiate Club	Jul 2012 - Jun 2013
Responsible for Managing Events, Activities & Funds for the College Club	
Served as a Convener of Notifications & Competitions to College	

EXTRA CURRICULAR ACTIVITIES	
FinLit Newsletter Editor	
FinLit Newsletter is a group that daily curates an article and publishes it across various channels	
Coordinator for Deep-C-Talk	
◦ Deep-C-Talk is a flagship event of COEP; where Corporate CXO's & Startup Founders address sessions which are arranged every alternate week ◦ Responsibilities Includes: ▪ Assisting guests about the technicalities of online platform and network requirements ▪ Managing the team for completing prerequisites necessary for events ▪ Delegation and distribution of tasks for sending invitations and online live streaming	

AWARDS AND RECOGNITIONS	
Identified a Major Flaw in the System Regarding M&M XUV 500 Wiring Harness APTIV	Oct 2019
◦ A major possible customer complaint was prevented from occurring in the XUV 500 export variant ◦ A new export variant of W/H was implemented ◦ W/H produced by new procedures were sent to the final assembly line and they all had a wire missing. ◦ It came to notice during verifying the process parameters ◦ A proactive escalation of the issue prevented a potential customer concern for a notable brand	
For formulating Assembly line operator's station-wise leave plan to prevent the loss in the productivity of assembly line APTIV	Feb 2019
◦ There was a consistent loss in productivity due to manpower absenteeism ◦ After analysing the issue, a completely new method to track the operator leaves and their skill matrix ◦ Skill matrix was combined with operator muster and leave plan to visualize the potential future hazards ◦ An advanced allocation of manpower and workstation training was conducted to replace the operator on leave who had the same level of productivity ◦ This eliminated the chronic issue and the method was horizontally deployed throughout the plant	
Mahindra XUV 500 Cockpit W/H Assembly Line - Efficiency Improvement from 76% to 94% APTIV	Sep 2018
◦ The assembly line had been running continuously at around 76% efficiency. This problem was assigned to identify, analyse and come up with the solution and the budget to implement them ◦ After finalizing on budget and the solutions, a 4-month long project was undertaken to make changes in the assembly line layout and introduced completely new methods to operate on work centres ◦ After implementing the solutions, the line was restarted with a learning curve of 1 month ◦ The targeted efficiency of 94% was achieved within 20 days	
Achieving Throughput of 100 Ton/ Day CEAT - Nashik Plant	Oct 2017
For taking proactive action to prevent the possible tyre scrap of "108 Tyres" in the event of boiler gasket failure CEAT - Nashik Plant	Oct 2017
◦ The boiler gasket leaked resulting in reduced steam pressure (a critical parameter) ◦ There were 54 machines running and 108 Nos of tyres were on the way to become scrap ◦ Necessary actions were taken with contingency procedures within the span of 25 minutes on an extravagant scale ◦ It resulted in no scrap which had a market value of Rs.14 Lac.	
Conducting Due Diligence for Deming Award Exam CEAT - Nashik Plant	Oct 2017
◦ Deming award is a prestigious award in the field of TQM ◦ Preparation of all the documents related to the product, process ◦ Collection of evidence to support the claims ◦ Ensuring of all the compliances and rectifying issues in adherence and making them more practical to practice	

Lowest Ever Scrap Reduction below 0.16% CEAT - Nashik Plant	Jul 2017
Defect reduction below 3.6% CEAT - Nashik Plant	Jun 2017
CONFERENCES AND WORKSHOPS	
AIMA Business Acumen (Business Simulation) Organized by: All India Management Association (AIMA) Date: Mar 2021 National Level Conference Organized by: Sinhgad Institute of Technology, Lonavala Date: Feb 2016 Presented a research paper - "Review on Gyrotory Mechanism of Spraying Machine for cylindrical case"	
VOLUNTEER EXPERIENCE	
VIKALP FOUNDATION - Role: Fundraiser Cause: Disaster and Humanitarian Relief Apr 2020 - Apr 2020 ◦ The campaign was organized for sanitary and scrap workers; because they lost their means of living due to the lockdown ◦ Raised Rs.1.16 Lakh & utilized it to give identified families enough of 1 month grocery	
LANGUAGES KNOWN	
English, Hindi, Marathi
